Name: Stefano Scalzo Student ID: 40060764

Team PJ-C

10 January 2019

Iteration 1

Date: January 9, 2020
Start Time: 20:00
End Time: 20:15
Who: Mario Lapadula, Ivan Ivachenko, Tan-Phat Pham, Stefano Scalzo, Khadija Subtain, Drew Wagner, Yanqi Zhang
Where: Concordia University SGW 920
Activities: Creating a slack channel for all the members.
Outcomes: Thinking about which part interests each colleague at each iteration

Date: January 16, 2020
Start Time: 21:30
End Time: 22:45
Who: Mario Lapadula, Ivan Ivachenko, Tan-Phat Pham, Stefano Scalzo, Khadija Subtain, Drew Wagner, Yanqi Zhang, Whenbo Zong
Where: Concordia University SGW 831
Activities: Go over software development cycles. Go over the assignment iterations briefly. Discuss general obstacles that will have to be faced through each faze. Discuss main capabilities and time each colleague can have dedicated to the project. Create the teams for each iteration.
Outcomes: Meeting for organisers saturday to create a calendar. Virtual meeting set for Sunday for 2:00-2:30pm.

Date: January 17, 2020
Start Time: 20:30
End Time: 22:20
Who: Stefano Scalzo, Khadija Subtain, Drew Wagner, Whenbo Zong
Where: Concordia University SGW 523
Activities: Go over use cases and the Domain model. Create possible use cases for the project.
Outcomes: None.

Date: January 18, 2020
Start Time: 13:00
End Time: 14:00
Who: Stefano Scalzo, Tan-Phat Pham, Whenbo Zong
Where: Concordia University SGW 523
Activities: Go over use cases and the Domain model. Create possible use cases for the project.
Outcomes: None.

Date: January 19, 2020
Start Time: 14:00
End Time: 14:30
Who: Mario Lapadula, Tan-Phat Pham, Stefano Scalzo, Khadija Subtain, Drew Wagner, Yanqi Zhang, Whenbo Zong
Where: Online zoom meeting
Activities: Explain how each meeting will be organized Explain the concept of a scrum. Go over the 3 use cases to be used and assign tasks to the coders and documenters.
Outcomes: Open a GitHub repository and run a GitHub clinic. Documenters must create an APA template in latex. Coders must review test driven development and start on the classes.

Date: January 22, 2020
Start Time: 21:30
End Time: 23:00
Who: Mario Lapadula, Tan-Phat Pham, Stefano Scalzo, Khadija Subtain, Drew Wagner, Yanqi Zhang, Whenbo Zong
Where: SGW 831
Activities: Run the GitHub clinic and discuss different principals using GitHub. Explain the explicit usage of GitHub per colleague to avoid errors. Go over LaTex and understand how to use it's different commands.
Outcomes: Coders review Unit tests. Documenters should create the use case diagram. Organisers should create a GitHub.

Date: January 22, 2020
Start Time: 21:30
End Time: 23:00
Who: Mario Lapadula, Tan-Phat Pham, Stefano Scalzo, Khadija Subtain, Drew Wagner, Yanqi Zhang
Where: SGW 523
Activities: Go over Java GUI's and possible classes for our java project. Confirm use cases which were: validate, add, initiate game.
Outcomes: Coders should try and create the 3 use case with java. Documenters should re-create the use case diagram. Organisers should create GitHub issues and assign the specific tasks to everyone.
